

ATM Solution from Travelex

In Partnership with You

Cash is king; especially for international travellers. ATMs are the primary method through which these customers access their cash. By providing this service on site you will be able to retain more of

your customers' overall share of wallet. ATMs are a low touch, low maintenance channel that can significantly add to your bottom line.

Bringing Unique Value

Performance

Significant revenue upside without cost. We will purchase and install the ATMs at our cost, requiring only electric outlets and 1 square meter of space from you.

Implementation

End-to-End Solution - We take care of ATM operations, fully and from end-to-end. With industry-leading partners including Wincor, NCR, Diebold, G4s and Loomis, we are able to provide an excellent, fully comprehensive service in more than 15 countries.

Bespoke Branding - From fully managed estates to white labelled solutions, Travelex has the ability to customise solutions specifically for your business.

Support

We support our clients with a single helpdesk contact, 365 days a year (less Christmas and New Year).

Functionality

Standard -

- Accept all VISA and MasterCard cards issued globally.
- Quick & convenient (25 second transaction)
- Balance enquiry function
- Full transaction receipt
- Greater than 98% availability

Unique -

Dynamic Currency Conversion (DCC)

Provides international cardholders with transparency and certainty. A customer can withdraw local currency and settle the transaction in their home currency - thereby seeing exactly what will be debited from their account at point of sale.

Multi-Currency ATMs

As well as local currency, Travelex ATMs can hold up to 3 other currencies from a choice of 12. The currencies can be tailored to suit our particular partner and their customer demands.
